# SEQUION<sup>®</sup> 10 K 44

- Sequestering agent for detergency application

---

---

## General properties

<b>Composition</b>	potassium salt of the hydroxyethylidene-1,1-diphosphonic acid
<b>Appearance</b>	colourless or lightly yellow, limpid liquid
<b>Active acid</b>	27% as HEDP
<b>Active Salt</b>	44%
<b>pH as is</b>	7
<b>Density at 20°C</b>	1.34 g/cm <sup>3</sup>
<b>Sequestering power at pH 10</b>	225 mg CaCO <sub>3</sub> per g. of product as is
<b>Solubility in water</b>	mixable in any proportion
<b>Storage stability</b>	best at normal room conditions; at temperatures lower than 0°C, the formation of small, white crystals, (easily soluble after mild heating), may occur.
<b>Storage</b>	mild steel - not suitable inox 316 - suitable polythene - suitable
